

‘THE JESUS APPRENTICESHIP’

Session 11: Local Church

Why bother with the local church?

Questions:

1. As she introduces the subject Anwuri talks about appreciating the local church and giving it the place God has planned. Do we do that?
2. Does the church as described by Damian, Anwuri and Sue bear any resemblance to your experience of the church? In what ways?
3. What could we do better to be more like the church that God wants?
4. Do you ever consider the spiritual realm/battle in your relationship with the local church? How do you think a change in your view on this will make a difference?
5. How would you encourage a new Christian to get involved with a local church? What are the key things you would say about church?
6. Have you been wounded in church? Do you need to forgive anyone?
7. Have you wounded anyone in church? Do you need to make amends?
8. How is your heart attitude towards others in church, especially those you find difficult to get on with? Could you be difficult to get on with; one of those for whom “extra grace is required”?!
